# Medication Management Training

## Are you looking for Medication Management Training at your workplace?

The aim of this ½ day course is to provide delegates with the knowledge to safely prompt/ administer medication

### Course Includes:

- The service user's privacy, dignity, independence and choice
- Understanding of the legislation surrounding medication
- The organisation's medication policies and procedures
- The role you play in giving medication
- The boundaries when assisting with medication administration
- What you can and can't do in relation to medication administration
- The importance of gaining the consent of the service user at all times
- The types of medication available and the possible routes these might be given
- To ensure that you practice safe administration of medication at all times

For more information or to make a booking / discuss your requirements.
